# ABSTRACT

A process for the non-commercial dry-cleaning of a textile article comprising the steps of:

- (a) optionally pre-treating a textile containing a localized area of stain by subjecting it to a fluid pre-treatment composition in combination with an absorbent stain receiving medium; and
  - (b) heat treating a textile that has been optionally pre-treated according to step (a)
- 5 together with an activator cloth containing an activator solution into a flexible, sealable containment means.

U.S. PATENT APPLICATION
